PROFESSIONAL SUMMARY

Back-end Developer with **3+ years** of experience building scalable, high-availability systems for transaction-heavy platforms. Specialized in **payment systems**, asynchronous processing, and backend performance optimization, with end-to-end ownership of production services. Proven track record of reducing latency, improving system reliability, and operating Dockerized microservices on **AWS**.

TECHNICAL SKILLS

Core Backend: Node.js, Express.js, REST APIs, Kafka, Redis

Databases: MongoDB, Prisma

Cloud & DevOps: AWS (EC2, S3, CloudFront), Docker, Linux

Languages: JavaScript, TypeScript

Testing & Monitoring: Jest, Supertest, Sentry

Frontend (Secondary): React.js, Next.js, Redux, Tailwind CSS, Material UI

PROFESSIONAL EXPERIENCE (3+ YEARS)

Software Developer (Back-end Developer) | Jan 2024 - Present

Gamemano Pvt. Ltd. | Delhi

- Designed and scaled Node.js backend services handling **100K+ daily requests**, improving API response times by **40%** through caching and async workflows.
- Owned a production-grade crypto payment system (BTCPay) processing **3,000+ transactions** per month, reducing payout errors by **90%** via automated validation and reconciliation.
- Automated **80%+** operational workflows across core casino services, significantly reducing downtime and improving system reliability.
- Deployed and maintained Dockerized microservices on AWS EC2, with **end-to-end ownership** of production stability, monitoring, and incident resolution.
- Improved backend scalability and fault tolerance by optimizing database access patterns and implementing Kafka-based asynchronous processing with Redis caching.

Technologies Used: Node.js, Express.js, JavaScript, TypeScript, MongoDB, Redis, Kafka, REST APIs, Docker, AWS (EC2, S3, CloudFront), Jest, Supertest, Git, Linux, Postman, Sentry

MERN Stack Developer | May 2023 - Jan 2024

Webient Technologies | Delhi

- Developed and optimized backend APIs using Node.js and MongoDB for MERN applications serving **5K+ active users**.
- Improved backend–frontend data flow, reducing page load times by **25%** through efficient API design and state handling.
- Built reusable backend-integrated UI components and shared utilities, accelerating feature delivery by **30%**.
- Worked directly with clients to convert business requirements into scalable, production-ready solutions.

Technologies Used: React.js, JavaScript, Node.js, Express.js, MongoDB, Redux, Webpack, Git, Postman, Linux

MERN Stack Developer Intern | Oct 2022 - Apr 2023

Daylogic Infotech | Noida

- Designed reusable authentication and user-management APIs, reducing future development effort by **40%**.
- Implemented backend validation and error handling, significantly improving application stability.
- Delivered full-stack modules with **95%** on-time feature completion, supporting rapid release cycles.

EDUCATION

Master of Computer Applications (MCA) – Lovely Professional University (Part-time)

2023 – 2026

Bachelor of Computer Applications (BCA) – Indira Gandhi National Open University (Part-time)

2020 – 2023

PROJECTS

Monkey Temple Casino

- Architected and deployed core backend services using Node.js, MongoDB, Redis, and Kafka.
- Owned payment integrations, referral workflows, and streamlined processing pipelines, supporting **100K+ daily requests** in production.
- Systematized **80%** of manual operations, improving system reliability and reducing operational overhead.

BTCPay Payment System

- Built and integrated a **crypto payment processing system** handling **3,000+ transactions per month**.
- Reduced payout discrepancies by **90%** using automated validation, logging, and reconciliation mechanisms.

CERTIFICATIONS

- The Complete Full-Stack Web Development Bootcamp – Udemy (2022)
- Python Developer Essentials – Immersive Bootcamp – Udemy (2022)

VOLUNTARY ASSIGNMENT

Teaching Assistant – Data Structures & Algorithms | 2021 – 2023

CodeHelp by Love Babbar

- Mentored **30,000+** students through live sessions, code reviews, and problem-solving discussions.
- Strengthened learners' DSA fundamentals and interview readiness via real-time debugging support.
